INVESTIS

REAL ESTATE GROUP

CURRICULUM VITAE

STÉPHANE BONVIN

Chief Executive Officer

Executive member
Member of the Executive Board
Swiss citizen, born in 1967

Stéphane Bonvin founded Investis in 1994 and has served as CEO ever since. The Group focuses on owning and managing its own real estate portfolio, which is primarily composed of residential properties in prime locations around Lake Geneva. Its strategy is to secure steady rental income while achieving long-term capital appreciation.

With nearly four decades of experience in the property sector, Stéphane Bonvin has leveraged his extensive market knowledge and strong professional network to steadily grow the portfolio. In 2010, he expanded into the property services sector, establishing Investis as a national player in this field. In June 2024, the Group divested all its property services activities, repositioning itself as a pure real estate company with a clear emphasis on residential property in the Lake Geneva region.
